

MYSTERY TOUR # 419 . . . ONE OF THE MOST FASCINATING!

Saturday June 9, 2012

\$114

Willoughby, Beachwood, Independence, No. Olmsted, Middleburg Hts, Medina, As Applicable

For our very first stop, you will be greeted with three unique architectural styles: Victorian Gothic, Richardsonian Romanesque and Queen Anne . . . but don't be surprised when it isn't what you might be expecting. For those who've traveled on this tour, we've kept everything identical.

From there we'll be visiting four additional stops, each a little more interesting than the previous, one learning about several movie stars and seeing where at least three movies were filmed. But wait until you've had a chance to see some of the most exotic domesticated animals whom used to inhabit places like Peru and Ecuador. You may fall in love and want one for yourself. History will come alive and, as always, no one will be going away hungry after the bountiful luncheon.
