This tour offers a unique dining experience aboard a vintage train that is a "fine dining experience". You'll be enjoying the 5-star, 3-course dinner as we travel through the Michigan countryside. Passengers will have a choice of entrees. Join us as we travel along the tracks of the Adrian & Blissfield Railroad. It is, however, more than just a train ride and a great meal.

You'll be entertained by a troupe of actors performing a comical interactive murder mystery. The show is more of a comedy than a drama and is designed with adults in mind. You'll be amid the intrigue, excitement, music and laughter; a cash bar is available. We've managed to keep the tour identical in all respects, including the same price as last year so that you may discover the experience so many others already have.
