While a number of regions boast of their wine production, this new tour centers on Raven's Glenn, known as "Ohio's Crown Jewel of Wineries", located on the banks of the Tuscarawas River. We will be greeted in a classic wine country tasting room, dine in a Tuscan-style Italian restaurant and tour the "behind-the-scenes" preparations that bring you these delicious, award-winning wines.

We'll also visit a nearby restored 19th century Ohio-Erie Canal town that features shops, restaurants and a 51-room Inn. We travel along the red brick paths to our waiting canal boat for a trip back into history. We've also scheduled a brief stop at an area flea market for yet another visit today.
