This is a super tour that passengers enjoy during fall foliage time each year . . . and there are a total of twelve meals included to ensure your enjoyment of this beautiful package. During our New England portion you'll be staying in both Vermont and New Hampshire while also visiting Maine. You'll be staying at the Inn at the Beeches, set in a 52-acre country estate with its French Country decor that offers a quiet and relaxing atmosphere as we travel to Vermont. There's not much that this tour doesn't have included and we've scheduled it for the "premium dates", arriving in early October, for even more color. Our staff has expanded the tour to include a private 90-minute lock-through canal cruise to best enjoy the foliage along the way.
