This popular tour presents an interesting insight into the Holiday in Amish Country and includes several gifts at the stops. We'll visit the the annual Festival of Trees, seeing dozens of trees with decorations of every type. At Warther's we'll be viewing the priceless carvings of ebony, ivory and mahogany as well as making a stop at the gift shop featuring the fine Warther Kitchen Cutlery. It's a perfect place to pick up some most-appreciated Christmas presents from shops you'll find only in this area. You'll be receiving a bag and seeing a pair of pliers hand-cut from one piece of wood.

Our mid-day dinner will be unique since we'll be guests for a luncheon at an Amish home featuring a holiday feast with a plate of their home-made cookies. We'll even send you home with some of the Hershberger bakery bread. There will also be visits to a cheese shop where, interestingly, you'll be learning how to make holiday sangria and taking a piece of cheese home with us in your bag. We've expanded this tour to include several gifts to take home and to include the meal at an Amish home. Plus a stop at a flea market, just in time for the holidays . . . a holiday gift for you.
